

BZBGear's PARTNERSHIP PROGRAM

Delivering Value & Driving Success

**BZBGear IS A LEADING MANUFACTURER
OF CUTTING-EDGE AV AND BROADCASTING SOLUTIONS.**

BECOME A DEALER

Our mission goes beyond offering award-winning hardware solutions. We are committed to empowering our partners through exceptional customer service, generous margins, reliable technical and marketing support, and complimentary design assistance ensuring every project achieves its full potential.

Join our network of trusted partners and gain access to:

- Comprehensive Support
- Exclusive Dealer Pricing
- Professional Training Opportunities

Partner with BZBGear and grow your business with our industry-leading products and resources!

ADAPTING TO AN EVOLVING INDUSTRY

As the Pro AV and Broadcasting landscapes rapidly transform, BZBGear is evolving with them. But we're not just progressing alongside, we're pushing ahead. We're aligning our product development roadmap with the future-forward needs of our industry:

Higher resolutions, smarter systems, and integrated workflows are driving demand. And we're right there with them!

Our commitment to 8K, future-ready solutions ensures our customers are not just prepared for tomorrow, they're ready today with full confidence in their systems from the jump.

We're investing heavily in AI-driven technologies, remote control and production, and seamless BYOD/ BYOM collaboration systems.

WORKING TOWARDS YOUR CUSTOM PROJECT

Every project is unique, with its own distinct requirements and design specifications. At BZBGear, we collaborate closely with you to bring your vision to life, ensuring every detail aligns with your needs. Whether you require a tailored AV system or specific customizations for your PTZ camera features, we provide the flexibility and expertise to make it happen.

Partnering with BZBGear means total support and peace of mind at every stage of your project. Build it right—right from the start—with BZBGear.

LIFETIME PRODUCT SUPPORT

CUSTOMIZE YOUR PROJECT

END-TO-END SOLUTIONS

WEBINARS

Our Engineering Department empowers partners to request custom product functions and features—whether they are unavailable or entirely new innovations. Unique firmware updates are typically completed within 1 to 4 weeks, depending on the complexity of the request, ensuring specialized solutions that meet specific project needs.

PRO AV - INNOVATION AND PROFESSIONAL INTEGRATION IS THE BEST BUSINESS FORMULA FOR SUCCESS

At BZBGEAR, innovation drives our long-term success. In 2025, we introduced the industry's first 16×16 8K HDMI matrix switch, BG-8K-1616MA, supporting 8K at 60Hz and 4K at 120Hz.

Designed for high-end 8K content, gaming enthusiast, esports competitors, and professional AV applications, it empowers our partners to provide future-ready solutions to their customers.

8K@60HZ / 4K@120HZ ECOSYSTEM

To reliably distribute 8K@60Hz or 4K@120Hz video signals, our engineers recognized the need for a complete high-bandwidth ecosystem. In addition to the 16×16 model, our 8K Matrix Switch lineup includes 2×2, 4×2, 4×4, and 8×8 configurations, offering flexibility and future-proofing for your clients' projects.

That's why BZBGear offers a comprehensive range of 8K

technologies that also include AV over IP, HDMI extenders over Copper and Fiber as well as standard and long-distance Active Optical cables. In addition we provide advanced 8K integration tools such as the BG-AVTPG-MINI-G2 Generator/Analyzer. Together, these solutions ensure seamless performance for high-end professional AV projects, gaming and esports applications.

4K/1080P VIDEO DISTRIBUTION SOLUTIONS

Innovative, reliable, and flexible, the BG-4K-VP1616PRO features sixteen HDMI inputs that can independently route to HDMI or LAN outputs. This versatile unit functions as a matrix switcher, multi-viewer, signal extender, and video wall processor capable of creating dynamic video walls with up to seven configuration modes per monitor. It can also display up to sixteen images on a single screen with multiple split-display options.

The VP Series is available in standard HDMI configurations of 4×4, 8×8, and 16×16, while the PoC (Power over Cable) models come in 4×4, 9×9, and 16×16 variations — providing flexible solutions to meet a wide range of professional AV requirements.

Below is an example of the BG-4K-VP99PRO connected to three displays and a projector for mirroring or sharing the conference room meeting via the BG-Connexio.

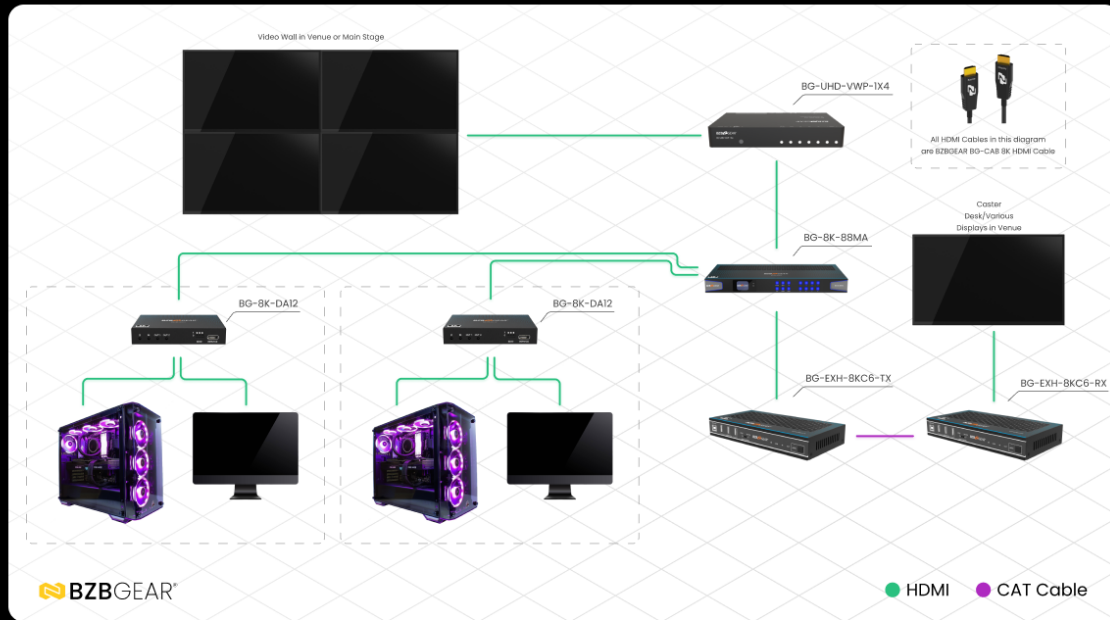

BZBGear VIDEO WALL PROCESSORS

Our lineup includes video wall processors, multiviewers, and presentation switchers designed to deliver exceptional performance and reliability in any environment.

BZBGear's Pro AV Products are tailored for a wide range of applications, including entertainment venues, hotels, education, healthcare, esports, and live events.

Below is an example of distributing 8K video signals including sources, displays and a 2X2 Video Wall.

BZBGEAR MULTIVIEWERS

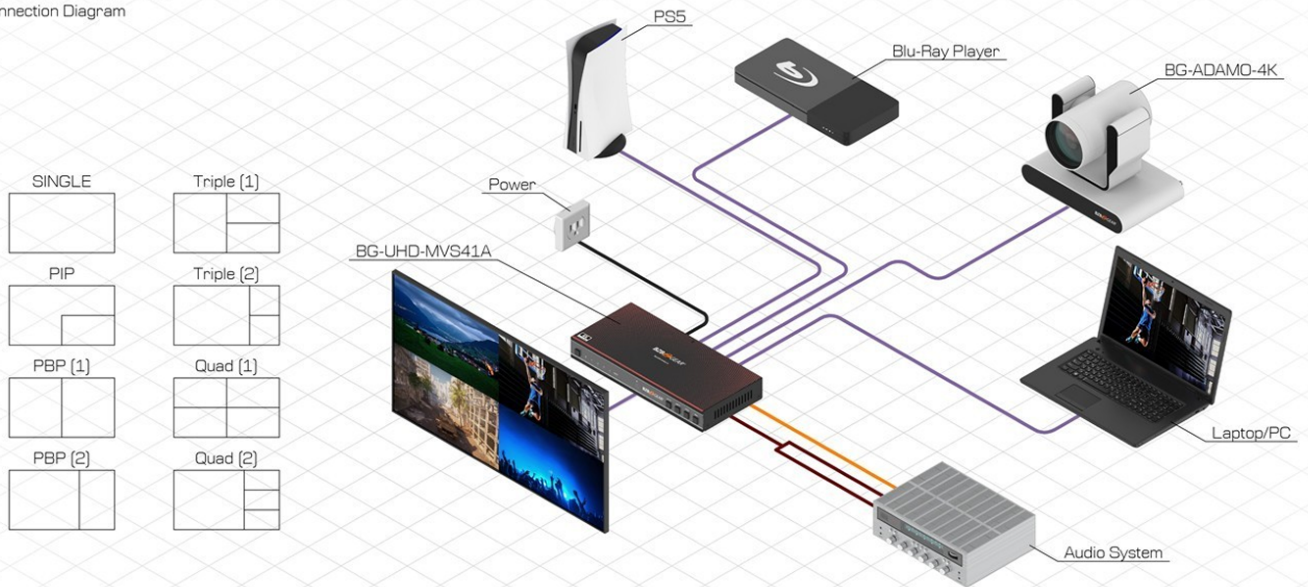

Multiviewers are video distribution devices that enable the display of multiple video sources on a single screen. These systems combine inputs from various video feeds into a single output, allowing operators to view all sources simultaneously. Video multiviewers are essential in environments where monitoring several cameras or sources is required.

Example of the BG-UHD-MVS41A connected to multiple sources for a single display with selectable presets for layouts.

BZBGear PRESENTATION SWITCHERS

Presentation switchers are essential tools for conference AV systems. These devices allow users to seamlessly switch between different HDMI, USB, or wireless input sources (e.g., computers, cameras, and other media devices), routing them to one or more display outputs.

They are particularly useful in environments like classrooms, conference rooms, and auditoriums where multiple presenters need to share content from various sources. A presentation switcher ensures smooth transitions and professional presentations, making it an indispensable component for modern AV setups.

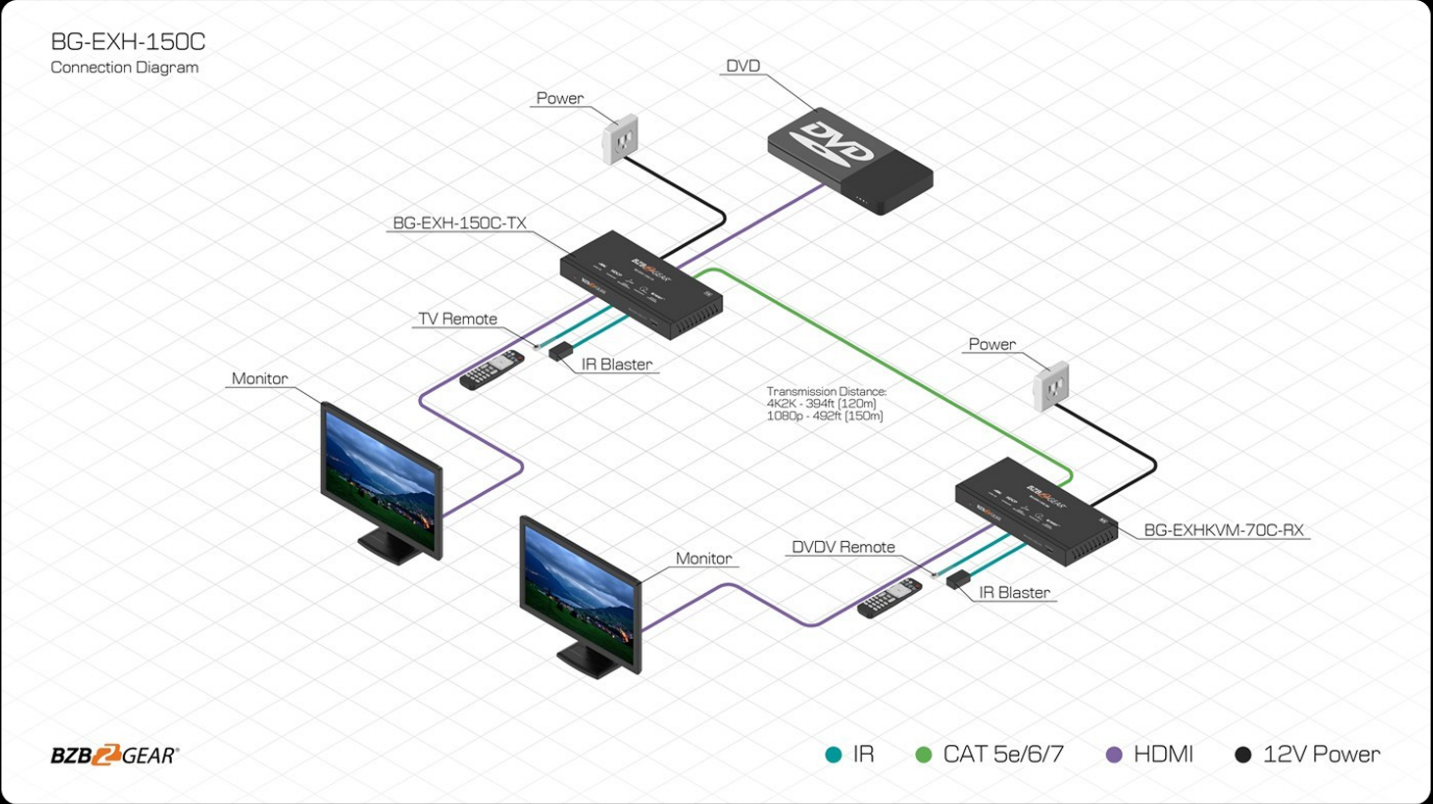

BZBGear SIGNAL EXTENDERS

BZBGear signal extenders are engineered to overcome the distance limitations of traditional AV cabling by delivering high-quality audio and video over long ranges using category cable, coaxial, fiber optic, or wireless technology.

The lineup supports HDMI, DisplayPort, USB/KVM, and SDI, offering solutions for virtually any setup—from sleek wall plate designs to long-range fiber optic kits—while ensuring lossless transmission and seamless integration with existing systems.

Key features include support for 8K video, HDR10+, Dolby Vision, HDCP 2.3, IR pass-through, EDID management, and 5G wireless compatibility on select models. Specialized options, such as KVM/USB extenders, enable smooth remote workstation functionality, while TAA-compliant models meet the needs of government and secure installations.

BZBGear Wall Plate Extenders

BZBGear Wall Plate Extenders provide a sleek and professional solution for extending AV signals over long distances using a single CAT5e/6 cable.

The lineup supports HDMI, DisplayPort, USB/KVM, and SDI, offering solutions for virtually any setup—from sleek wall plate designs to long-range fiber optic kits—while ensuring lossless transmission and seamless integration with existing systems.

BZBGear AWARDS

BZBGear has a number of award winning products from past tradeshow events. These award winning products were nominated and judged against other nominees. See what makes our award winning products so extraordinary!

BZBGear takes pride in its portfolio of award-winning products, recognized at numerous prestigious trade show events. These accolades reflect the innovation, quality, and performance that define our solutions.
