BZBGEAR

Multiviewers

BZBGEAR multiviewers are advanced video distribution devices that allow users to view multiple video sources on a single screen, providing a comprehensive visual solution for various professional applications. Whether you are monitoring multiple cameras in a broadcast control room, managing live event feeds, or overseeing security footage, BZBGEAR multiviewers ensure exceptional image clarity and flexible control options.

With support for resolutions up to 4K@60Hz and advanced features like audio de-embedding, auto-scaling, and seamless layout customization, these multiviewers deliver reliable performance and versatility. What sets BZBGEAR multiviewers apart is their user-friendly design and broad compatibility. These devices support various video sources, including HDMI inputs, and offer multiple control options such as IR remote, RS-232, web GUI, and front panel buttons, making them easy to integrate into any setup.
